About Me:

I graduated from the University of Central Arkansas in Conway with a Bachelor of Science in Education and am certified to teach physical education and health and have a coaching certificate. I have been in the teaching profession for seven years. This is my second year at Atkins. I grew up in Prescott, AR and have lived in the central Arkansas area for the past 15 years. I am married and have one daughter. In my free time, I enjoy playing golf and spending time with my family.
